A TROPICAL EXPERIENCE

The project has been designed to provide a tropical experience in Gandhinagar.

The Concept of living is inspired such a way which has a major influence of ancient Hindu elements. The tropical architecture involves perfect harmony of the building with the environment, where every component of design blends seamlessly with the surroundings!

When nature lies at your disposal you have every reason to come home early. A unique combination of luxurious living, contemporary lifestyle with tranquil and serene surrounding is a rare treat.

The project has been devised taking in consideration the basic concepts of artistic architecture. The architecture of Siddharaj Z+ creates a co-ordination between the three realms of the cosmos i.e. the land, the water and the sky. Experience the beautiful infusion of nature with the structure and see them amalgamate in synchronization.

Visit once to immerse in this glorifying 'tropical experience' right in the centre of enterprise hub Gandhinagar.
